HEALTH-CARE

TOTAL FUNDING = $24.8 BILLION

Improving the health and resilience of all Missourians is an essential part of building a foundation for growth. Each year, the state of Missouri is required to appropriate funds to support individuals with physical, developmental, and behavioral health needs. Mandatory spending for mental health and healthcare includes items like:

- Medicaid programs
- Habilitation Centers for Missourians with developmental disabilities
- State-operated psychiatric facilities

The following budgetary items reflect the Kehoe Administration's priority funding for mental health and healthcare.

HEALTHCARE CONT.

BUDGETARY PRIORITIES

Project	Investment ($)	Purpose
Outpatient Competency Restoration	6.1 MILLION	Increased funding for outpatient competency restoration services, allowing individuals to receive timely treatment and reducing the burden on local jails
